

# b.telligent

b.telligent Group Holding GmbH

**smart data. smart decisions.**

b.telligent is a technology-independent consultancy specializing in analytics and data management. With over 300 employees at eleven locations in Germany, Austria, Romania and Switzerland, b.telligent supports companies in all projectphases, from strategy and analysis, to design and implementation, right through to operational management and continued development of the solution. The company's services are focused on the optimization of business processes and customer/supplier relationships.

For the ninth time in a row, b.telligent 2024 has been ranked as one of the best consultants in Germany by business magazine brandeins Wissen, achieving 3rd place in Data & Analytics and even topping the list in Artificial Intelligence at 1st place.

FOCUS Business also selected b.telligent in 2023 for the third time as one of the top consultants in the fields of analytics & big data, digitalization, IT consulting and IT implementation, as well as for numerous industries, including automotive, banking and private equity, as well as retail (incl. e-commerce) and insurance.
